Puppies can wake you up
in the morning,

try to climb onto your bed,

and give you a kiss.

Puppies can chase a ball,

learn how to sit,

and give you their paw.

Puppies can dig holes
in the yard,

track mud into the house,

and make a big mess.

Puppies can greet you
when you get home,

run around in circles,

and roll over for a belly rub.

and run alongside you!

Puppies can play tug-of-war,

take a bath,

and get you all wet.

Puppies can snuggle with you,

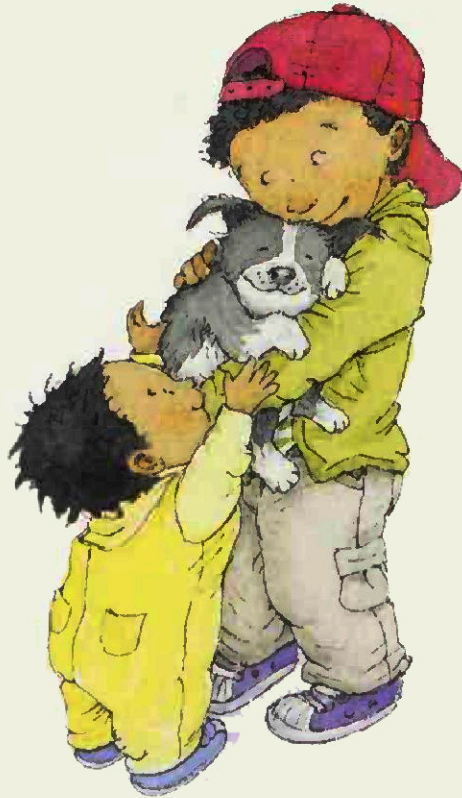

get cozy in their bed,

and give you a kiss good night!

But best of all . . .

puppies can give
you lots and lots
of love.
